Milton J. Burham, Malcom Hay and

by the President.

The Senate Prolongs the Life of the Committee on Forestry and Agriculture.

Haines to Vote to Adjourn the Illinois Legislature and Defeat the Democrats.

The Senate.

By Telegraph to THE SENTINEL.

WASHINGTON, March 18.—The chair laid before the senate a resolution offered by Miller, of New York, authorizing the committee on agriculture and forestry to sit during the recess to consider the best means of preserving the forests upon the public domains and to employ a clerk. A brief debate ensued. The only object of the resolution was to give employment to the clerk of the committee named during recess. It was agreed to, however, by a vote of 7 to 25.

The senate then went into executive session and the following nominations were made by the president: Milton J. Burham (Ky.), first comptroller of the treasury; Wm. Garraud (Nevada), superintendent of the mint, Carson City, Nev.; James R. Ryan (Nevada), corner at mint, Carson City; Malcom Hay (Pa.), first assistant postmaster general; Martin I. Montgomery (Mich.), commissioner of patents; D. S. Barker, Jr., (R. I.), attorney of United States for district of Rhode Island; Benjamin H. Hill, Jr., (Ga.), attorney of United States for the northern district of Georgia.

CONFIRMATIONS.

Colonel Nelson H. Davis, inspector general, with the rank of brigadier general; Lieutenant Colonel Absolom Baird, inspector general, with the rank of colonel; Edward D. Clark, of Mississippi, assistant secretary of the interior; Sidney D. Jackson, of Texas, United States marshal of the western district of Texas.

JOSEPH S. MILLER

The nomination of Joseph S. Miller to be commissioner of internal revenue (Vice Walter Evans resigned) which was sent to the senate yesterday, was reported favorably from the senate committee on finance to-day and taken up in the executive session. A point was made that Evans had not resigned and this gave rise to a discussion during which a message was received from the president nominating Mr. Miller, (vice Walter Evans to be removed) and withdrawing the nomination of yesterday. During the subsequent proceedings it was developed that Evans had told the secretary of the treasury he would resign whenever the secretary wished. Evans it was explained, supposed he would be called upon for his resignation while Secretary Manning understood his expression of a willingness to resign. In fact the Republican senators said there was no intention to antagonize the administration in this regard and expressed an opinion that the position of commissioner of internal revenue was one which ought to be filled by a man of the president's choice, but they thought injustice had been done Evans in not giving him an opportunity to resign.

The nomination was referred to the finance committee. The discussion of the Central American affairs which began yesterday was then resumed, the pending question being a resolution offered last Friday by Senator Edmunds declaring it to be the sense of the senate that Barrios, president of Guatemala, should be prevented from carrying on his scheme of annexing neighboring republics. The resolution was criticised as amounting substantially to a declaration of war, and Senator Ingalls proposed an amendment to modify in this regard. The amendment was lost. The senate then adopted the resolution with only seven negative votes. Senator Edmunds moved that the injunction of secrecy be removed from the resolution and the vote upon it, but a single objection carried it over under rules for a day.

Hon. Joseph S. Miller, nominee for the internal revenue commissioners, received congratulatory telegrams from all sections, from Republicans as well as Democrats. The following was received from the editor of the Wheeling Intelligencer:

WHEELING, WEST VIRGINIA, March 17th, 1885.

Hon. Joseph S. Miller. Accept a Black Republican's hearty felicitations. I think our best people will approve. [Signed] CHARLES BURNETT HART.

PANAMA INTERESTS.

Secretary Whitney to-day sent a dispatch to Commander Mahar, of the Wachusett, at Panama, informing him of the hostilities likely to take place between some of the Central American States and Barrios, which will endanger the lives and property of citizens of the United States, and directing him to proceed with his vessel to La Union and La Libertad and other points on the Central American

coast to protect American interests. The secretary also directs Commander Mahar to protest against any attempt to put the cables or interfere with their use and take all precautions to protect the health of his officers and men from diseases, which would render it necessary for that vessel to leave that coast.

The secretary of the navy secured the services of a professional accountant of New York for the purpose of having a thorough investigation made into the accounts and methods of keeping them in every branch of the navy department.

One Vote for Black.

SPRINGFIELD, Ill., March 18.—In the joint assembly 188 members answered the roll call. Streeter alone voted and cast his ballot for John O. Black. Adjourned till to-morrow.

Explosion in a Saloon.

By Telegraph to THE SENTINEL. BRADDOCK, Pa., March 17.—A barrel of gasoline exploded in the cellar of McCullough's saloon on Railroad street to-night, fatally burning Jas. Callough, proprietor, and seriously burning three other men whose names could not be ascertained. Smoke was seen issuing from the cellar and McCullough went down with a lamp to investigate the cause when the explosion took place. The saloon was crowded at the time and the flames enveloped the building almost instantly, there being barely time to escape. Several persons had their clothing burned, and, as stated, were seriously injured. McCullough was rescued with difficulty, but he was so terribly burned that he cannot recover. The building, together with the adjoining saloon was entirely consumed. The loss is \$12,000.

Pool Lines Disregard Pool Rates.

By Telegraph to THE SENTINEL. PHILADELPHIA, March 17.—An official of the Pennsylvania railroad said to-day that there is practically no observance of the pool rates on freight either east or west. Further, he declares that all lines are already acting independently, but there has been no considerable cutting of rates, for most lines have nearly as much business as they can conveniently handle. He further stated that the Pennsylvania railroad will take a determined stand against entering any new pool.

Tramcars in Panama.

By Telegraph to THE SENTINEL. PANAMA, March 17.—The heavy firing ceased at 9 p. m. last night, and the rebels retired to Buena Vista to re-entrench. The British gun boat, Heroine, landed seventy-five men yesterday with a galling gun to protect properly the traffic on the Panama railroad, and business was suspended to-day, and there is great excitement as a second attack is expected. President Arosemena sought refuge on the Heroine. Colon is reported to be in the possession of the rebels.

It is reported that 1,000 miners employed by the Grape Creek Coal and Coke company will strike to-morrow.

DUBLIN, March 18.—There is great excitement on the line of the Cork and Bandon railway to-day occasioned by the finding of the bodies of two men who had been frightfully hacked to death with knives and then thrown across the track to be mangled beyond recognition. The tragedy is surrounded by mystery, but the police theory is that the men were passengers on a train and were murdered for the purpose of robbery, the assailants having secured seats in a compartment with the victims and that the latter, after having been frightfully stabbed, were thrown out of the car to be run over by another train.

Washington Gossip.

By Telegraph to THE SENTINEL. WASHINGTON, March 18.—Walter Evans, commissioner of internal revenue, said to-day it was not true as asserted in the executive session of the

senate yesterday, that he had expressed to Secretary Manning a willingness to resign. "As a matter of fact," said Evans, "I not only have not resigned, nor have I ever had a word on the subject with either the president or Secretary Manning." Evans has written a letter to the secretary in regard to the matter.

Dr. Francis Wharton, Philadelphia, has been appointed legal advisor upon questions of international law in the state department to succeed Judge Henry O'Connor. Dr. Wharton resigns from the chair of international law in the Boston university to accept the position.

BARRIOS' MOVEMENTS.

Secretary Bayard has written a letter to Senator Miller, chairman of the senate committee on foreign relations, giving him all the information possessed by the state department concerning Barrios' movements. The first intimation received by the department in regard to the revolution was a telegram from Barrios to the president announcing that he had assumed the title of chief military in command at Guatemala. Later dispatches were received stating that the republics of San Salvador, Nicaragua and Costa Rica would resist Barrios, and requesting the assistance of the United States government. A telegram from Hall, United States minister to Central America, reported that Honduras was an active party to the Barrios movement. Upon these representations the state department sent a dispatch to Minister Hall, at Guatemala, instructing him that this government, while believing a voluntary association of the interests of the Central American States was desirable, would not countenance any display of force by anyone or more states to coerce the others, and that the United States would stand ready to exert influence to avert a conflict and promote peace. Similar messages were sent to the governments of Nicaragua and San Salvador, and like verbal assurances given the minister of Costa Rica in respect to his government. No communications have been received or sent to the government of Honduras. The Mexican Minister here conferred with Secretary Bayard as to the course taken by Mexico and was informed that this government would use its good offices to prevent a destruction of the autonomy of the Central American states, and to this end, would be glad to have the co-operation of Mexico. Later, but unofficial details state, that on the 9th inst., the Guatemalan revolution against San Salvador was stopped and Barrios asked President Toldivar to send two commissioners to settlements. Secretary Bayard, further states that Senator Barrios, minister of San Salvador, at this capital has been deprived of his mission because of his association with the movement of Barrios and a new minister will soon be sent here.

The orders given the naval officers for the protection of American interests in Central America are given in detail and the secretary expresses the opinion that no obligation to interfere rest upon this government under any treaty with the states involved. The report has no intimation that any European power has interfered or contemplates an interference in the present differences in Central America. In conclusion Mr. Bayard says this department can not countenance any measures of subservience of the free autonomy of any of the several states, and believing that the moral influence and good offices of the United States can be made a potential agency in the preservation of peace. The dispatch from the president of San Salvador alluded to in Mr. Bayard's letter states that Barrios is trying to enforce a Central American union with the avowed purpose of annulling the canal treaty with Nicaragua.

PRESSURE on the ears is to be avoided by persons who wish to preserve their sense of hearing. Narrowing of the auditory canal by the pressure of a handkerchief worn over the head and tied underneath the chin, as it is commonly adjusted by the peasant women of Europe, often causes deafness; and the coronet of nuns, pressing tightly against the pavilion of the ear, frequently produces the same effect. Gradual dilation of the laminae tonsils is suggested as a natural means of cure.

Two Men Killed Skating.

By Telegraph to THE SENTINEL. NEW YORK, March 18.—Albert Gregory, one of the assistants in the Peckskill rink, while doing some fancy roller skating Saturday evening, was taken ill, and complained of excessive pains across the small of his back and hips. He took off his skates and started home. As he was descending the steps of the rink he became faint and fell down. It was a long time before he regained consciousness, and when he did it was found he was paralyzed on the right side. At times he was rational and at times his mind wandered. He died early yesterday morning. The physician who attended Gregory says that the latter's death was directly traceable to the severe strain on his nervous system caused by constant skating.

In consequence of a broken rail on the
track of the Wabash near Lago there
was another wreck this morning. A
freight train was derailed and the road

Pullman car conductors, porters and
cooks are considerably disturbed over
the order just issued by the Pullman
car company that they shall pay for all
food or drink of which they partake
when on the hotel or buffet cars. The
prices are scaled down somewhat lower
than prices to passengers, lest their

Adam Forepaugh, the showman, com-
menced suit in the superior court at Chi-
cago yesterday against William Gillam
to recover \$500 damages. In 1883 Ben
Bushee, cashier for Forepaugh, ac-
crued with some \$8,000. Subse-
quently the matter was settled by Bus-
hee giving Forepaugh notes for the
amount stated. Gillam indorsed one of
the notes, which has become due, hence
this suit. Bushee is known here, where
he lost \$3,500 at faro when the circus
was here. Mr. Forepaugh asked Judge
S. M. Hench to assist in the case, but
judicial business prevented.

IN THE EVENING.

Rev. P. P. Cooney, Lecturer at Library Hall
to an Appreciative Assembly—The
Banquet at the Fox Parlor.

The festivities of St. Patrick's Day
were fully noted in THE SENTINEL yester-
day. Last evening Rev. P. P. Cooney,
C. B. O., an eminent divine from Notre
Dame lectured at Library hall. Very
Rev. Father Brammer introduced the
lecturer and concluded by saying Father
Cooney would preach at the cathedral
to-night.

The "Battle of Life and the Irish
Race" was the title of the lecture deliv-
ered to an appreciative audience. The
distinguished lecturer is a strong, vigor-
ous and eloquent speaker.

He illustrated the battle of life as the
contest for right in which man is engaged;
history shows the Irish people to have
been conspicuously engaged in this con-
test under the most favorable conditions
and to have exhibited an unconquerable
adhesion to right. He portrayed the
condition of the Irish at the time of the
advent of St. Patrick; their advance-
ment in science and laws in these words:
Barbarism had eclipsed the brightness
and polish of the Augustan age, and lit-
tle was felt of its former brilliancy, save
the tints which were refracted from the
rays of departed luminaries. The fifth
century of the Christian era was in learn-
ing, like a fine evening within the
tropics—The short interval that is
given to enjoy a glorious view
between a bright day of burning
calm and a night of thunder. Van-
dalism and pandonian fury raged and
desolated the west. The Saracen swept
the east and Moslem infestation tore
from Africa what the Goth had spared.
Ireland was saved from this deluge, and
then, as in another ark, were preserved
the means of rekindling the torch of
science. Among all impartial historians
is the testimony, uniform and uncontra-
dicted, that in Ireland, during this reign
of terror, the schools were in the per-
fection of vigor and in the highest credit,
and that she fully deserved those high
titles, "Insula sanctorum et doctorum"
—the island of saints and teachers.
These are titles of which no other spot
on the globe's surface can boast, and
which she received with the unanimous
consent of the world. Strangers from
all parts of the then known world flocked
to her schools for knowledge.

The fallacious notion that the Irish
are unable to govern themselves he re-
futed magnificently by showing that all
refined nations within the past three
centuries have at times been indebted to
Irish brains and Irish blood for much of
their glory; that prior to the twelfth
century Ireland had a government regal
in name, but well nigh republican in
principles, which boasted of an un-
broken succession of kings for 2,000
years prior thereto. The distinguished
Irishmen of the present century were
portrayed in vivid colors. The contest for
the right was one in which the Irish race
had long been engaged and their fidelity
to their religion and right always char-
acterized them among the nations of the
world.

The lecture abounded with anecdotes
in the line of its theme and was a fine
rhetorical effort and a highly intellectual
treat.

After the lecture a select party of Irish-
men and their ladies sat to a banquet at
the Fox parlors, and toasts and songs
speedily put the hours in the past.

The Demand is Great.

The demand for roller skates is so

large that in less than a year the demand
for boxwood has tripled, so Al Foote
tells us. No wood has been found to
take the place of this for roller skate
wheels, though numberless expedients
have been tried—rubber, celluloid, raw
hide, vulcanized fibre, and compressed
paper. None of these have been found
to answer the purpose nearly so well as
boxwood. This is grown in Persia and
Turkey, and at the rate of consumption
will be practically exhausted in twelve
months more.

Hopes to Be Fulfilled.

The Warsaw Times says: "Captain
James B. White, president, and Willis
D. Maier, secretary, have very kindly
extended to us an invitation to be pre-
sent at the annual reunion of the Thirtieth
regiment, which is to take place in the
armory of St. Basil's post, G. A. R.,
on April 7, 1885. We have never found
ourselves so situated as to be able to at-
tend the reunions of this regiment, but
we hope to do so this time. There will
doubtless be a large number present
from this county."

Wrecks on the Wabash.

The west bound passenger train on
the Wabash struck a broken rail
about four miles east of Napoleon
yesterday morning. The engine and
baggage car passed over in safety,
the smoker flew off the track and went
clear over on her side, the next coach
slipped over by the smoker and the trucks
plunged into a ditch of water; the coach
swept on, going its entire length off the
track across the road; the Wagner car
came next and went over the embank-
ment, careened over on its side and
stopped followed by another sleeper
which retained its place on the road bed.
No passenger was hurt and but one per-
son, a brakeman, James Steele, was in-
jured. The wounded man was placed
in the baggage car and taken to Na-
poleon and medical aid summoned. He
was found to be severely bruised and
internally injured, but no bones were
broken. Considering the way the cars
were thrown about it is wonderful that
several were not killed.
